

ELITE OCTANE ETHANOL

Atlantic, IA

Fagen, Inc. was the EPC contractor for a 120 MMGY dry grind ethanol facility in Atlantic, IA, owned by Elite Octane, LLC. The facility is exceeding expectations, processing more than 140,000,000 gallons of ethanol a year from about 50 million bushels of corn. The plant can receive 140-150,000 bushels of corn per day from approximately 140 trucks per week. Every seven days, 80 railroad tankers leave the plant full of ethanol heading to refiners. The project was valued at \$132,658,929.

Mobilization - March 6, 2017

Substantial Completion - August 16, 2018

Scope Of Work

Plant areas constructed:

- Grain Receiving
- Fermentation
- Process
- Ammonia
- Distillation
- Evaporation
- Energy Center
- Boiler Building
- Product Storage
- Tank Farm
- Ethanol Loadouts
- Water Treatment
- Cooling Tower

Points of Interest

One challenging aspect of this project was that a majority of the foundations and piers had been installed almost 10 years prior to Fagen arriving on site!
