

# OIL SEED & EXTRACTION

## OUR EXPERIENCE

Fagen Inc. leads the way in oil seed and extraction. Serving as the EPC contractor for four oil seed and extraction facilities, each processing 3,300 tons of soybeans daily into renewable diesel, we prioritize safety, quality, and on-time delivery. Our holistic approach offers eco-friendly alternatives to traditional fossil fuels. Through collaborative partnerships and unwavering dedication to excellence, Fagen Inc. spearheads soy crush capabilities, propelling agriculture towards a more efficient and sustainable future.
